

Certified NIST-traceable cyanide calibration standards for accurate instrument calibration and quality control.

SPECIFICATIONS

Concentrations	0.1, 1.0, 5.0, 10, 50 mg/L
Volume	100 mL per standard
Uncertainty	±1% (k=2)
Traceability	NIST SRM
Shelf Life	24 months
Storage	Refrigerate (2-8 deg C)
Certificate	Included per lot

FEATURES

- ▶ Five concentration levels (0.1, 1.0, 5.0, 10, 50 mg/L)
- ▶ NIST SRM-traceable with certificates of analysis
- ▶ Stabilised formulation for extended shelf life
- ▶ Individual sealed ampoules prevent contamination
- ▶ Suitable for calibration and QC checks

APPLICATIONS

- ▶ Instrument calibration
- ▶ Quality control verification
- ▶ Method validation
- ▶ Proficiency testing preparation
- ▶ Audit documentation
